

Internet Services

At Edinburgh Office, we can supply a choice of ADSL Broadband Internet packages for your office, ranging from smaller capacity connections to professional dedicated lines. You can choose the appropriate bandwidth dependant on your current needs, but change to a different bandwidth (download speed) at any time should the need arise.

If you prefer to use wireless Internet, you can connect your own WIFI router to the Cat 5 connections points we set up for standard use.

Internet Connections

These connections are sourced through our own ADSL system, meaning your download speeds are preserved regardless of the activities of other users on the system. These are also professional level connections with a much lower contention ratio than a domestic connection, giving you much faster performance.

Static IP addresses are available on this service.

Download Speed	Monthly Download Limit	Monthly Fee
512k	None	£25
1MB	None	£35
2MB	None	£45
4MB	None	£70

Dedicated Connections

Dedicated connections are only used by your company and all connections have their own static IP address.

There is a 30 day lead time for setting up a dedicated connection, but we will enable a standard connection for you until the dedicated line is ready.

All dedicated connections are subject to a minimum 1 year contract and 1 month notice of cancellation.

Download Speed	Contention Ratio	Monthly Download Limit	Monthly Fee
8MB	20:1	None	£120

Setup and System Changes

Our prices include service and support to ensure your Broadband Internet connection works effectively in your office location.

We can advise on your setup if you need specialist help and we can customise your setup to provide a customised package if appropriate for your needs.

Service	Price
Internet Connection Setup Fee	£45
Dedicated Internet Connection Setup Fee	£95
Plus setup per Cat 5 patch point	£10
Moving Cat 5 patch point	£20
IT Support	£85 per hour (min. 1 hour)
